Signature Order Instructions

To create a signature font we need an **actual printed copy of the order form**. Do not email this form to us. Sign this form inside the box and mail or FedEx the form to us. All signature orders must be prepaid. **We do not accept purchase orders for signature fonts.** To order, follow the steps below.

Step 1: Print several copies of the order form page. Before filling out the form, practice signing your name(s) inside the box. A very fine tip felt pen works best. Pick the best looking signature and use that form in the steps below. No part of your signature may touch or cross the lines that make up the box.

Step 2: If one person has signed their name inside the box, the cost to convert that to a font is $149. If the signature font must print two signatures at once, then both parties must sign inside the box and the cost will be $199. If the signature font must print three signatures at once, then all parties must sign inside the box and the cost will be $269.

Step 3: Normal processing time is 7 – 10 business days after **receipt** of the order form and payment. If you are in a hurry, you can add $50 to the cost for **rush service**. Check the box on the order form for this. This will cut the processing time to 2 – 3 business days.

Step 4: Select the type of return shipping you want. Email is the quickest way to receive a signature. If you select email, make sure you white list the domain barcodingfonts.com in your spam filter or firewall. The download email will come from this domain. You can select both email and physical delivery together to receive a download and back up CD.

Step 5 Options:
> **Make font embeddable.** Standard signatures fonts will not embed in pdf files. If you need a signature font that will embed in a pdf file, check this box and include an extra $25.
> **Specify font name.** We assign signature typeface names at random. (Signature 1, Signature 2, …) If you already have a signature font and want to use another one in conjunction with the first one you must specify a different typeface name here. This costs $50. You **can not** change a typeface name by renaming the font file.
> **Character to activate.** To use a signature font you select the font (from your font menu) in your application. You then print a single character in that font, which prints your full signature. If you do not select this option the character to print your signature will be the letter "N" *(for Name)*. For an additional $25 you can specify any character (except control characters).

Step 6: Fill out the payment information section and the contact information sections of the form. Please fill out all fields so we can contact you in case of a problem.

Step 7: Send the form, along with your payment via mail, UPS, FedEx, or DHL to:

Elfring Fonts Inc.
4N899 W Mary Dr
St Charles, IL 60175-5506

Review: Please make sure all your information on the order form is legible!
